## APPLICATION FOR INTERNSHIP

### REFEREES REPORT (RE – EZE NNAMDI SHEDRACH)

The above named has requested that I act as one of his referees for possible appointment in your hospital. He is well known to me as my former student whom I taught.

To the best of my knowledge, Nnamdi is a hardworking and brilliant young man with a zeal to learn new things and improve on existing knowledge. He can carry out research work comfortably and persevere under duress. He respect authorities and freely relate well with colleagues and friends. I therefore feel free to recommend him for the internship position he is applying for because I know he can carry out any task required of him comfortably.

Thank you.

Yours faithfully,

Prof. Douglas F. Nwagbo
